## Professional Summary

Here is the link to my GitHub https://github.com/WilliamNdoni

Here is the link to my Tableau public https://public.tableau.com/app/profile/william.ndoni/vizzes

Here is the link to my LinkedIn profile https://www.linkedin.com/in/william-omondi-86256b234/

I am a passionate and results-driven data enthusiast with a strong foundation in data analysis, visualization, and machine learning. With a Bachelor's degree in Telecommunication and Information Engineering and certifications in Data Science and AWS Cloud Practitioner, I bring a blend of technical expertise and analytical skills to solve complex problems. I have hands-on experience in building machine learning solutions, such as developing a Swahili automatic speech recognition model and a loan default prediction system. I thrive in roles that require attention to detail and efficiency, as demonstrated during my time as an Enumerator for the Kenya Climate Smart Agriculture Project. Additionally, my accomplishments in hackathons, web analytics, and cloud computing highlight my drive for continuous learning and impact-driven projects.

## Skills

- Data analysis
- Machine learning
- Data visualization
- Front-end development

## Work history

**Enumerator|** Kenya Climate Smart Agriculture Project

**LAMU - March 2021 - May 2021**

Conducted farmer registration and collected data for digitalization under KCSAP (Kenya Climate Smart Agriculture Project).

**Machine learning intern|** Gearbox
**NAIROBI - May 2022 - August 2022**

Participated in building an automated door lock system that incorporates facial recognition. Gained valuable skills in machine learning that built the foundation for my data science career.

**Sales Operations Coordinator|** Kim-Fay East Africa Ltd
**NAIROBI - Feb 2025 - March 2025**

Supported sales operations by analyzing sales team performance metrics, identifying trends and improvement opportunities, and coordinating administrative processes to enhance overall sales efficiency and effectiveness.

**Data Analyst| Davis and Shirtliff**
**NAIROBI - May 2025 – Mar 2026**

Develop Python scripts to streamline operations across transport and service sectors, while designing and building Business Intelligence dashboards that provide actionable insights and support data-driven decisionmaking for operational efficiency.

## Education

**St. Paul's Primary School (2008 – 2015)**

Achieved 414 marks in KCPE (Kenya Certificate of Primary Education)

**Maseno School (2016-2019)**

Achieved A- in KCSE (Kenya Certificate of Secondary Education)

**Jomo Kenyatta University of Agriculture and Technology (September 2020 – September 2025)**

Bachelor of Science in Telecommunication and Information Engineering — Second Class Upper

Division **Moringa school (April 2023 – November 2023)** Achieved a Data Science Certification.

**AWS re/Start (April 2024 – August 2024)**

Became an AWS Certified Cloud Practitioner. (CCP)

**Accomplishments**

- Participated in web and social media analytics hackathon at Davis & Shirtliff and became the season's MVP.
- Earned a Data Science certificate from Moringa school.
- Completed the AWS re/Start program and became a Certified Cloud Practitioner.
- Developed a SWAHILI automatic speech recognition (ASR) model that converts Swahili audio to text.
- Built an automated door lock system at Gearbox.
- Developed a loan default prediction model as my final project at Moringa School.

**Programming Languages**

- Python
- DAX
- M
- HTML
- CSS
- JavaScript

- C
- C ++

**Tools, Frameworks and databases**

- Tableau
- Power BI
- Excel
- Django
- PostgreSQL, MySQL

**Certifications**

- Data Science
- CCP (AWS Certified Cloud Practitioner)
- KCSE
- KCPE

**Interests**

- Data analysis and visualization
- Machine Learning
- Big data analysis
- Large Language Modelling (LLM)
- Cloud computing
